Recycling plastic waste

Clawing back landfill

Working towards a greener future

## Commercial and Industrial Plastic Recycling

EPS (expanded polystyrene) – packaging and boxes

HDPE (high density polyethylene) – drums

PP (polypropylene) - crates

DRUM Muster Processor

Rigid Plastics : Contract Processing, Washing and Pelletising

CLAW Environmental recycles plastic, specialising in expanded polystyrene and rigid plastics. We operate from our base in Welshpool, servicing the metropolitan and country WA. Most scrap plastic can be dropped off free of charge during business hours. We also offer a regular or on demand collection service. If you are throwing plastic in the bin, wish to save some money and help the environment, then give us a call.
